

Pascal 460. Cabin 2026

Pascal 460 Cabin

Presented by

Pascal Marine Company / myjacht.com

Company introduction

International presence in the shipping market

The Pascal boat brand originated in the Canary Islands and boasts an international presence, offering premium quality motorboats at reasonable prices, available everywhere.

We live to design and manufacture boats that meet the expectations of modern luxury – in terms of design, quality and user experience.

At the same time, we believe that a premium experience should not be exclusively the privilege of a narrow group.

We consciously shape our pricing policy to ensure that our boats remain affordable for those looking for value, quality, and reliability – without unjustified surcharges.

Pascal is not about excessive luxury.

Pascal is all about intelligent luxury.

- European production
- Controlled quality
- Clean, timeless design
- Real value in use
- Sustainable price position

We believe that true premium lies not in the branding, but in the construction, the use of materials and the experience.

Pascal Marine – affordable luxury on the water.

Manufacturing quality

Excellent use of materials and precise manufacturing process

All boats are made from premium quality materials, durable.

Sustainable brand philosophy

Our goal is to combine luxury and functionality in an environmentally friendly way.
